### OB SERIES OS SERIES

We've packed more than a few new features into the all new range of Convotherm combi-steamers.

Our patented **disappearing door**, now standard, gives you more space and more freedom to move. Tray spacing is now a generous 67mm, so you can fit more into your Convotherm, and produce more.

Convotherm **Advanced Closed System** now comes with Crisp & Tasty for crispier, more succulent results. **Press and Go** Control programming (optional on the OS series) means more possibilities and more consistency in more applications.

If you need further proof that the new Convotherm is better than ever, consider this. With all these extra features, it's around 25% heavier than our nearest rival. Which means you get more for your money, whatever way you look at it.
